Dimensional Measurement selects OpenDMIS

Dimensional Measurement, Inc a newly created Michigan business founded by one of the most experienced Managers of Dimensional Inspection shops in the USA has selected Xspect Solutions as the supplier for its CMMs. Mohamed "Mo" Abdelhafiz is well respected by the Michigan manufacturing community and after 2 decades of managing operations for others has set-up his own business.

Mohamed and his professional staff are very well versed in all CMM softwares and after evaluating OpenDMIS concluded "it's the new benchmark for the CMM world. Offering significant improvements in usability, seamless CAD integration and CMM productivity it is the perfect match for our business which is satisfying companies dimensional metrology requirements. Fast turnaround and a cost-effective service is the hallmark of this business."

Dimensional Measurement is equipped with the following Xspect CMMs:

- Xsperienced Sheffield RS150 (1200mm x 2000mm x 1000mm) CMM rebuilt and retrofitted with new Wenzel 2030 Controller, Renishaw 0.5 micron tape scales, Renishaw PH10MQ/TP20 and OpenDMIS.
- Wenzel LH8.10.7 (800mm x 1000mm x 700mm) CMM with PH10M/TP200 and OpenDMIS
- X-Centric Video CMM
