

Why you should call...

Dimensional **M**easurement, **I**nc.

DMI is regarded in the field of contract inspection as an industry leader, who offers the following benefits:

- ✓  We are accredited by the American Association for Laboratory Accreditation (A2LA) for calibration & dimensional testing – Certificate #2503.01.
- ✓ Due to our low overhead, we offer one of the best values in our industry.
- ✓ Our sizeable machine capacity gives us the ability to process most jobs expediently without rush charges.
- ✓ DMI's professional Engineers possess unparalleled experience in virtually every aspect of Metrology – conventional CMM, laser scanning, touch probe, gage calibration, surface finish analysis and optical inspection, to name a few – some available either in-house or on-site.
- ✓ The superior measuring equipment utilized at DMI includes industry leading Wenzel CMMs, Faro portable articulating arms with laser capability, together with our vision system, and surface finish equipment.
- ✓ We enjoy one of the lowest turn-over rates in the industry, which translates to a stable quality system.
- ✓ DMI is 100% employee owned – which means we all have a tangible and personal stake in the long-term success of OUR Company.
